To whom it may concern,

James Keaney and the DCG crew performed an amazing job restoring Historic 76 year-old Boyle Stadium to the way the original stadium was built, as well as adding the requested ADA alterations. James kept the City of Stamford's best interest in mind and was very attentive to all our special requests. Throughout the renovation James went above and beyond what was expected from the General Contractors that we normally hire. In fact by recommending several cost saving measures, as well as continuously scrutinizing subcontractor's pricing on behalf of the owner, he saved money for the Project.

The foresight and construction experience of the DCG team was evident on this Project. The Project started on time, there was great oversight and sub-contractors were managed very well. There were several owner initiated change orders that were incorporated seamlessly.

The DCG crew was professional and very experienced. They demonstrated a general interest, ensuring that our expectations were not only met but exceeded.

I would without hesitation recommend Diversity Construction Group for future work.

Sincerely,

Jeff Brown, Construction Manager
