Elms Common

Project at a Glance

Elms Common
Rocky Hill, CT

Client: PDS Engineering & Construction, Inc.

Architect/Engineer:

Project Delivery: Sub-Contractor

Tucked in a quiet residential area on Elms Common Drive, Elms Common is comprised of 156 large studio, one and two bedroom apartments in three four-story buildings with elevators for convenience and comfort. The complex boasts fitness facilities and outdoor pools.

Diversity construction was selected to remove carports in preparation for the installation of new carports for this apartment complex. DCG also upgraded the electrical service to the carports as well.
